Mr. A. C. Lundahl
Washington 25, D. C.

Dear Art:

As you are probably aware my Colorado venture got itself absorbed into Data Corporation of Dayton, and I came along. I am most pleased with the direction of these events and am happy to once more be a participant in affairs of moment.

Mr. William Gorog, the Executive Vice President of Data Corporation, and myself currently plan a visit to Washington during the week of 15-19 April and would appreciate an opportunity to visit with you at your convenience, somewhere in that time frame.

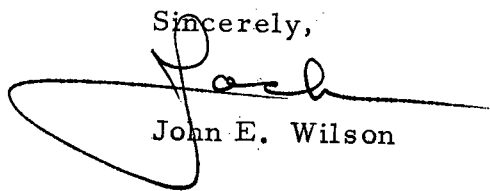

We, at Data, have evolved a unique idea-nonhardware-which I feel will be of active interest to yourself. We would thus welcome the chance to orally submit that idea to you for your long range consideration, and need I add that if you can manage to join us for a lunch at that same time we would be delighted by your company.

If you can work our visit into your week would you have your secretary call us collect (Area Code 513, 426-3111) and we shall hold all other plans in abeyance to conform to your schedule.

My warmest congratulations on your recent honor. I sincerely doubt that there is a man in Government more deserving of the recognition than yourself, and I know that I felt a sense of pride on your behalf at the news. To quote our mutual friend, Robert A. - "Good Show".

In anticipation of your reply I remain,

Sincerely,

John E. Wilson

STAT

Dear Art:

I would like to accept your \$1.50 tour. I will be in Washington on Monday, March 4th, in Newport News on the 5th and Washington on the 6th and 7th.

I would like to phone your secretary on the morning of the 4th. Hopefully you can see me sometime that day.

Sincerely

Bernard P. Marcus
